

Easily Maintain your Septic System

Why add Xtreme:

It's easy to protect your septic system and keep it operating smoothly by simply using Xtreme.

The initial application of Xtreme;

Restores the natural biological process

Boosts the existing biological activity

Following with regular monthly applications will;

Keep your septic tank working effectively

Prevent expensive emergencies

Xtreme is safe to use as directed.

It is completely natural and environmentally safe, containing no corrosive chemicals, caustic or acids, and is hazard free.

It will not damage metal, ceramic, or plastic parts of the drainage system.

This product uses a unique water soluble pouch system to make dosing hassle free.

No mess, No hassle, No bother.

X **TREME Eco-Pro Septic Enhancer**
SEPTIC TANK ADDITIVE

Enzyme Waste Degradert

- Extends Life of Drain Area
- Controls Methane Production
- Improves Drain Field Percolation
- Keeps Sewer Lines Open
- Neutralizes Detergent Bleach
- Prevents Drain Blockage
- Will Not Attack Plastic or Metal Plumbing
- Safer to Use than Harsh Chemicals

Eco-Pro Septic Enhancer is a specially formulated bacterial concentrate for application in septic systems. These environmentally safe organisms penetrate and digest fats, grease, soaps, detergents and other organic build-up that can clog and block drains and leachfields. Each 2 oz. pouch contains 300 billion organisms for the most potent treatment available!

Gross off one month below each time you use a packet.

When functioning properly, household wastes are collected in your septic tank and then broken down, liquefied, and deodorized by the naturally occurring bacteria. Because this process is biological, it is easily upset and may stop working.

Some common factors that often upset the natural process are:

- Overuse of disinfectants
- Overuse of bleaches
- Overuse of detergents
- Very hot or cold conditions

Such factors kill the micro-organisms that work to keep your septic system running properly. Because modern septic tanks are water-tight concrete boxes, the naturally occurring bacteria in the surrounding soil are unable to enter. Xtreme is specifically designed to replenish and boost the supply of these invaluable micro-organisms and allows natural activity to continue.
